

Andrews Sykes – Serving the NHS and Health services

We are the UK's largest Air Conditioning Hire Company, helping the NHS and Health services stay cool and productive with the biggest range, latest equipment, most experienced people and a true 24/7 service Nationwide. For both planned support and the fastest emergency response, we'll help you create the right environment. You are assured of environmentally friendly, energy efficient units for lower running costs, with flexible short and long-term hire options including discounts for continuous periods and special packages for everything from a single room to multiple sites. We are the only accredited supplier of Portable Air Conditioning through HM Government OGCbuying.solutions.

Andrews Sykes priority is to ensure the NHS and Health services receive the best equipment at the most competitive prices together with excellent hire services.

ANDREWS AIR CONDITIONING

Andrews Air Conditioning – the UK's Number One

We are the UK's largest Air Conditioning Hire Company, helping you stay cool and productive with the biggest range, latest equipment, most experienced people and a true 24/7 service Nationwide. Our air conditioning units are easy to use, energy efficient and environmentally friendly.

ANDREWS CHILLER HIRE

Andrews Chiller Hire

When you need serious cooling power, Andrews gives you the most reliable products and the highest service levels: tried and tested Chillers and Air Handlers for even the toughest applications. From low temperature air chillers to energy efficient fluid chillers. Andrews provides solutions that will help your staff, processes and business stay cool.

ANDREWS HEAT FOR HIRE

Andrews Heat for Hire

We are the UK's leader in Portable Heat for Hire, delivering safe and cost-effective warmth for any application and location. We deliver compact yet powerful electric, gas-fired and oil-fired heaters for long or short-term hire, whether it's planned support or emergency cover.

ANDREWS BOILER HIRE

Andrews Boiler Hire

Delivering instant heat and hot water, our high performance natural gas or oil fired mobile boilers are the most advanced and efficient in the business. Whether it's support during maintenance and refits or the fastest emergency response after a breakdown, we are capable of satisfying all your heating and hot water needs quickly and reliably.

Call us free - for all your hire needs

One call to 0800 389 0008 is all it takes. We promise a fast and responsive service - you'll be put through to someone who'll ask the right questions, understand your requirements and help you choose the right product or service. We offer free advice, site surveys and quotations.

Same day service for all products

Nationwide speed of delivery is a big part of our customer charter. Wherever you are, whatever you need, we'll be with you fast. Call us 24/7, 365 days a year for the best products, engineers and installation specialists from our 30 depots nationwide.

Take the heat out of **Healthcare**

With Powerful Portable Air Conditioning Hire from Andrews

Turning down the heat in healthcare...

with fast, cost – effective Air Conditioning Hire

Regardless of rising temperatures, hospitals and clinics need to stay working safely and productively: the focus on patient care is constant and non-negotiable.

Tragically, the heat experienced during recent summers led to a significant increase in death rates; some of these deaths might have been avoided if additional cooling power had been available fast. Summertime temperatures are predicted to continue rising.

'As the official supplier of air conditioning to the public sector through OGCbuying.solutions and fully supported by NHS PASA, Andrews leads the way in the provision of temporary cooling solutions for the NHS'

Portable air conditioning hire for hospitals and healthcare

Andrews is the only official approved supplier of Air Conditioning through the OGCbuying.solutions framework agreement. Use of this framework is fully supported by NHS PASA which means that we can provide the health service with professional air conditioning services at preferential pre-qualified rates and terms.

We work closely with many NHS Trusts and properties servicing all aspects of healthcare across the country. Delivering reliable cooling for any location or application no other supplier can match our truly National, Regional and Local service coverage.

We're also fast: we will deliver within hours of your call

Keeping patients and staff cool and comfortable

Our hire equipment helps protect your organisation, your staff and the patients you care for.

It's estimated that with every five-degree temperature increase there can be an attendant rise in death rates of between 10% and 15%. In sensitive locations like patient wards, nursing and care homes, especially if infants and the elderly are involved, ensuring a cool and more comfortable environment during hot summer months can be critical.

With a genuine 24/7 local service we can provide immediate back up to minimise the impact of existing cooling failure.

It makes sense to plan ahead – and Andrews can help. Based on our experience in all areas of healthcare, we will deliver the right solution for your environment.

- **Hospitals: for any clinical location including A&E, patient wards, individual rooms, outpatient clinics, treatment rooms, operating theatres, X-ray suites and waiting rooms**
- **Other locations and support facilities including IT facilities, temperature sensitive storage areas and server rooms, administrative offices, canteens**
- **Clinics and health centres, both large and small and including those providing minor surgical procedures**
- **Dental practices**
- **GP practices and patient homecare**
- **Nursing and care homes**
- **Secure hospitals and clinics**

We can help you deal with the effects of rising ambient temperatures, install reliable equipment during maintenance of permanent systems, and guarantee the fastest response after a breakdown.

When the heat starts rising, it's time to call Andrews, your OGCbuying.solutions approved and NHS PASA supported supplier of temporary and fixed air conditioning.

Recommended products

Portable air conditioners

Energy efficient and environmentally friendly, we offer the biggest range of easy-to-use high performance equipment, including exhaust tube and split-type units.

Portable Evaporative Coolers

A great solution for localised cooling in places with limited access: no tubes or outside connection needed.

Portable Fans

For cooling, extraction and ventilation, we'll ensure fresher and healthier airflows.

Portable Chillers

For large scale cooling applications Andrews can provide a large range of Chillers and Air Handlers.

Portable Air Handlers

Connect our Chillers or Boilers to these units and get a complete solution for temporary high volume air conditioning and heating systems.

We're the proven hire solution specialists...

OGC Buying Solutions - Andrews is the sole accredited supplier of Air Conditioning through the Office of Government Commerce, fully supported by NHS PASA, recognising our experience and expertise in the health care environment. Our contract covers every area of the public sector, including National, Regional and Local Government, education, the MOD, Police forces and HM prisons.

Central & North West London Mental Health NHS Trust – High temperatures in healthcare mean discomfort for patients and staff. Focusing on patient care, this Mental Health Trust examined its provision of air conditioning in summertime to keep premises cool, maintain patient comfort and so improve treatment opportunities. OGC-accredited Andrews was the preferred supplier for 80 sites. Mel Clare, Associate Facilities Manager: "Andrews was the ideal solution - we get value for money and the standard of service our style of care demands. Installing equipment into our properties has been very beneficial to patient care and staff comfort."

In a record-breaking summer, Andrews supplied hazard-free cooling equipment for many other hospitals, health centres, clinics and offices.
