

Take the heat out of **Retail**

With Powerful Portable Air Conditioning Hire from Andrews

Fast, cost-effective air conditioning hire for any shop, anywhere

Heat drives people out of shops, which translates directly to your bottom line in terms of lost customers and lost sales.

The serious hot weather in recent summers wreaked havoc for the many retailers who didn't have fast access to extra cooling, as and when they needed it.

Looking ahead, summertime temperatures are unpredictable at best and, at worst, look set to rise. So you need a way to make sure your sales figures don't slip into the red...

Make your shop a cool oasis for consumers...

Portable air conditioning hire from Andrews, the UK experts, means you create the right atmosphere for retail - so customers stay longer and spend more.

Each summer we help thousands of retailers keep their customers cool and their tills ringing, **with hire units at prices that make sense**. We're the hidden power behind consumer spending.

The range includes stylish units for "front of house" customer-facing locations; **small footprint, energy-efficient equipment** that looks smart and keeps shops and shoppers cool, including our Zephyr, Polar Wind and Polar Breeze models.

We're also fast: we will deliver within hours of your call

- We have the UK's biggest range of portable air conditioners, fans air handlers and chillers for hire
- We are very price competitive
- We have depots Nationwide - for instant delivery same day

Give your customers more: the best air conditioning hire

Our powerful, reliable equipment helps protect your business and customers, so you can continue selling more products to more people – no matter how hot things get.

Most of the big UK retailers use Andrews because we have the power to cool even the biggest spaces, from shop floors and boutiques to supermarkets and department stores.

The thing is, we also deliver single units for hire at great prices for much smaller shops and independent retailers. Whoever you're competing against, comfort cooling can help make all the difference - and we'll deliver the right solution, whatever your size or location.

- **From high street chains and large department stores nationwide... to small shops and independent retailers, including single locations**
- **Supermarkets - from the biggest sites to local outlets**
- **From shopping centres and malls... to local convenience stores**
- **Out-of-town retail parks, car showrooms and large furniture retailers... to DVD rental outlets**
- **Plus warehousing, stores and distribution centres**

We'll help you tackle rises in temperature fast, install the most reliable equipment during maintenance of your permanent systems, and guarantee the most professional emergency response following a breakdown.

When the heat starts rising and footfall starts falling - call the experts in retail cooling - Andrews air conditioning hire.

Recommended products

Portable air conditioners

Energy efficient and environmentally friendly, we offer the biggest range of easy-to-use high performance equipment, including exhaust tube and split-type units.

Portable Evaporative Coolers

A great solution for localised cooling in places with limited access: no tubes or outside connection needed.

Portable Fans

For cooling, extraction and ventilation, we'll ensure fresher and healthier airflows.

Portable Humidifiers

Tackle low humidity fast: no more dry throats, sore eyes and static electricity.

Portable Dehumidifiers

Our reliable refrigerant and desiccant units make short work of high moisture problems.

We're the proven hire solution specialists...

High street nationwide retailer - we support all sites for a major high street retailer and pharmacist across the UK. Thanks to the prompt delivery of cooling and heating services, we have enabled stores to stay open and continue trading.

Major retail bank - we are contracted by one of the UK's biggest banks to provide emergency backup for 2,000+ UK branches and sites, providing air conditioning and heaters. We deliver a 24/7 priority response across the network, ranging from additional units in extreme weather to total replacement after a cooling or heating failure, so the bank can continue trading from all locations: our backup helps many branches stay open and keeps staff and customers comfortable when sites would otherwise have closed due to high temperatures.
