

Portable evaporative air coolers

The UK leader in portable evaporative coolers for hire

There are many applications where it is impossible or impractical to use portable air conditioners. In such cases an alternative may be the use of an evaporative air cooler.

Often used where access to an external source is unavailable, the Andrews range of stand alone evaporative air coolers are an ideal solution to uncomfortable conditions.

Typical low ambient humidity performance

The evaporative concept is designed to cool fresh air through the process of natural evaporation by drawing air across a wet filter and providing a refreshing air flow. As the air passes the wet filter, a drop in temperature will be experienced, although the overall room temperature will not be reduced. The unit will provide a localised comfort cooling zone.

Applications for the smaller evaporative coolers

- Offices
- Shops
- Restaurants
- Schools
- Kitchens

Applications for the Eventair evaporative coolers

- Sports halls and gymnasiums
- Large manufacturing areas
- Outdoor events and marquees
- Large retail outlets
- Night clubs
